Dr. Edward Lin  
Founder & CEO  
HealO Medical, Inc.  
1109 Millpond Court  
Osprey, FL 34229-8863

Dear Dr. Lin:

It was indeed a pleasure to have the opportunity to speak with you last week regarding your new device for simultaneous application of negative wound pressure as well as topical oxygen. I think this device has a very exciting potential and would have great use particularly in smaller burns and skin grafts. I'm still not clear on how it would benefit the larger burns, but I think it would be of great benefit to patients with smaller, deep partial-thickness wounds and particularly in diabetic foot burns.

I look forward to hearing more about the progress you are making in the development of this clinical application.

Sincerely,

Sidney F. Miller, MD, FACS  
Professor of Surgery  
Director, Burn Research and Resource Development  
The Wexner Medical Center at Ohio State University
